## PART III—SECTION 2

### Notifications and Notices issued by the Patent Office relating to Patents and Designs

#### THE PATENT OFFICE

#### Patent and Designs

#### CORRIGENDA

Calcutta, the 22nd March 1958

In the Gazette of India, Part III, Sec. 2, dated 8th February 1958—

In page 34, Column 2, under the heading "Applications for Patents"—

Against No. 62978—

for "N.V. Paranjpe" read "N.V. Paranjape".

In page 35, Column 1, under the heading "Applications Accepted"—

for No. "67175" read No. "57175",

and

for No. "67176" read No. "57176".

#### Application for Patents

The dates shown in crescent brackets are the dates claimed under Section 78A of the Act.

6th March 1958

63315. Glaxo Laboratories Limited. Improvements in or relating to antibiotics. [Addition to No. 57982.] [Divisional date 8th January 1957.]

63316. Commissariat A L'Energie Atomique. Improvements in time of flight measurement neutron spectrometers.

53317. Commissariat A L'Energie Atomique. Improvements in fuel arrangements for use in nuclear reactors having vertical channels.

63318. Probhat Kumar Ghosh. A method for the manufacture of 'Dry Mounting Tissue Paper' with shellac based adhesive.

63319. T. Yoshida. Slide fastener.

63320. T. Yoshida. Enamelling and desiccating apparatus for slide fastener chain.

63321. Montecatini Societa Generale Per L'Industria Mineraria E Chimica. Process for the production of granular high polymers of ethylene.

63322. N. V. Philips' Gloeilampenfabrieken. Improvements in or relating to apparatus for automatic mounting of electronic components. (7th March 1957).

53323. N. V. Philips' Gloeilampenfabrieken. Improvements in or relating to pressing moulds for pressing gramophone records.

63324. Societe De Prospection Electrique Procudes Schlumberger. Improvements in shaped charges used for the perforation of walls.

63325. Rosan Engineering Corp. Self-tapping insert.

63326. P. A. F. Baumert. Process for obtaining fluorine compounds.

63327. P. A. F. Baumert. Process for obtaining volatile fluorine compounds and for purifying metallic or carbide melts.

63328. Ciba Limited. Process for the manufacture of new imidazoles.

63329. Syntex S. A. Process for the manufacture of new pregnadiene compounds.

63330. Armour Research Foundation of Illinois Institute of Technology. Production of bamboo pulp and paper.

63331. Syntex, S. A. New compounds of the pregnene series and process for the preparation thereof.

63332. P.E.V.A. Paren. Method of burning waste liquor.

7th March 1958

63333. S. Ponnuswamy. Accidents prevention "APE" (accident prevention equipment) for lorries, buses, trucks and other allied heavy road transport vehicles.

63334. T. M. Rajendran. Improvements in or relating to engines.

63335. S. R. Godbole. Improved ratchet wheel for automatic take-up motion for fly-shuttle hand-loom.

63336. GEVAERT PHOTO-PRODUCTION N.V. Improvements in or relating to increasing the dyeability of nitrile-groups-containing polymers. [Addition to No. 56940.]

63337. E. K. Cole Limited. Improvements in or relating to television receivers. (13th March 1957).

63338. Standard Telephones and Cables Limited. Improvements in or relating to guides for electromagnetic waves. (8th March 1957).

63339. Armour Research Foundation of Illinois Institute of Technology. Rice bran oil extraction.

63340. E. I. Du Pont De Nemours and Company. Polyamide structures and process for their production.

63341. E. I. Du Pont De Nemours and Company. Polymerization process.

63342. E. I. Du Pont De Nemours and Company. Polymerization process.
63343. E. I. Du Pont De Nemours and Company. Polymer solutions and their preparation.
63344. E. I. Du Pont De Nemours and Company. Finishing polyester fabrics.

8th March 1958

63345. T. J. R. Bright. Improvements in or relating to the production of patterns and moulds for use in the production of castings, pressings and the like.
63346. Ethyl Corporation. Gasoline composition.
63347. Merck & Co., Inc. Chemical compounds and processes for preparing the same.
63348. Union Carbide Corporation. Method and apparatus for dispensing gas material.
63349. Hobourn-Eaton Manufacturing Company Limited. Series dual pump arrangement. (16th October 1957).
63350. Hobourn-Eaton Manufacturing Company Limited. Roller pump. (29th November 1957).
63351. I. E. S. Park. Improvements in or relating to the conveyance of freight by aircraft.
63352. The Welsbach Corporation. Processes for the production of dibasic and monobasic acids.

10th March 1958

63353. Council of Scientific and Industrial Research. A process for the preparation of 2-substituted amino-5-methyl- $\Delta^2$  thiazolines.
63354. M. A. Chaudary. Improvement in and relating to lubricants.
63355. Monsanto Chemicals Limited. Chemical Compositions (15th March 1957).
63356. The British Tabulating Machine Company Limited. Improvements in or relating to information reading arrangement. (24th April 1957).
63357. United States Atomic Energy Commission. Method of producing dense uranium oxide.
63358. Westinghouse Brake & Signal Company Limited. Vehicle weighing mechanisms for variable load valves for fluid pressure braking systems. (22nd March 1957).
63359. Societe Anonyme Des Manufactures Des Glaces Et Produits Chimiques De Saint-Gobain, Chauny & Cirey. Process and apparatus for the manufacture of thermoplastic fibres, particularly glass fibres.
63360. Societe Anonyme Des Manufactures Des Glaces Et Produits Chimiques De Saint-Gobain, Chauny & Cirey. Process and apparatus for the manufacture of fibres, particularly glass fibres.
63361. The Wellcome Foundation Limited. Improvements in and relating to quinoline derivatives and the manufacture thereof. (22nd March 1957).
63362. J. Martin. Improvements in multi service connector devices for the occupants of aircraft. (11th March 1957).
63363. H. G. Carlsen and E. A. Carlsen. Calculating machine.
63364. R. Rummel. A process for the gasification of liquid fuels. (18th December 1957).
63365. The Metal Box Company Limited. Improvements in or relating to machines for liquid-coating metal articles. (11th March 1957).
63366. C. E. Fulford Limited. Improvements relating to the production of senna products. (18th March 1957).
63367. H. E. Hammond. Improvements in or relating to potters' wheels.
63368. Ciba Limited. New sulphonamides and a process for their manufacture.

63369. Westinghouse Brake & Signal Company Limited. Improvements relating to pressure braking systems for vehicles. (22nd March 1957).

11th March 1958

63370. M. Rafiq. Improvements in or relating to cycle locks.
63371. British Timken Limited. Improvements relating to shafts for carrying interference-fitted members thereon. (30th March 1957).
63372. E. K. Cole Limited. Improvements in automatic gain control in television receivers. (21st March 1957).
63373. Chas. Pfizer & Co. Inc. Preparation of Chemical compounds.
63374. Indian Oxygen Limited, formerly The Indian Oxygen & Acetylene Company Private Limited. Treatment of molten ferrous material. (11th March 1957). [Addition to No. 62429.]
63375. The British Oxygen Company Limited. Work supports. (29th March 1957).
63376. Brevets Aero-Mecaniques S. A. Improvements in self destruction fuzes for projectiles rotating about their axes. (19th November 1957).
63377. Tecalemit Limited. Plastic combining element. (15th March 1957).
63378. Olin Mathieson Chemical Corporation. Synthesis of steroids.
63379. Imperial Chemical Industries Limited. New organic compounds. (22nd March 1957).
63380. Imperial Chemical Industries Limited. New and improved compositions of matter. (27th March 1957).
63381. Imperial Chemical Industries Limited. Purification process. (20th March 1957).
63382. Imperial Chemical Industries Limited. Polymerisation catalysts. (27th March 1957).
63383. Unilever Limited. Improvements in dispensing devices. (20th March 1957).
63384. Societa Farmaceutici Italia. Process for the synthesis of 5-hydroxy-7-methyl-S-triazole (4, 3-C)-pyrimidines.
63385. Ciba Limited. New Urea derivatives and a process for their manufacture.
63386. Ciba Limited. Manufacture of new thio-alkane-carboxylic acids and functional derivatives thereof.
63387. Ciba Limited. New amino-pyrazoles and a process for their manufacture.
63388. Elektro-Thermit G.m.b.H. Grinding machines for the machining of rails true to profile.
63389. Bundy Tubing Company. Push rod structure and method of making same.

12th March 1958

63390. P. S. Setty. Earth Borer.
63391. Schering Aktiengesellschaft. N-Acyl derivatives of (3:5-diamino-2:4:6-trilodobenzoyl)-amino acids and X-ray contrast media containing the same.
63392. United Kingdom Atomic Energy Authority. Improvements in or relating to processes for the production of ceramic bodies. (14th March 1957).
63393. The General Electric Company Limited. Improvements in or relating to electric lighting fittings. (14th March 1957).
63394. Heinrich Koppers Gesellschaft mit beschränkter Haftung. Process for the purification of crude benzene.
63395. The Patent Tiffin Carrier Sanghvi Co. Thermally insulated container for food or like purposes.
63396. General Electric Company. Flow divider for fuel system.
63397. General Electric Company. Nozzle and seal assembly.

63398. Mrs. Kamla Gupta. Improvements in or relating to gear pumps.

63399. Fairbairn Lawson Combe Barbour Limited. Improvements in textile machines. (13th March 1957).

#### Alteration of Date

62229. Ante-dated to 17th October 1956 under Section 5 of the Act.

#### Applications Accepted

Notice is hereby given that all persons interested in opposing the grant of patents on any one of the applications referred to below may at any time within four months of the date of this Gazette of India give notice to the Patent Office in the prescribed form No. 6 of the Indian Patents and Designs Rules, 1933 of such opposition.

A limited number of printed copies of the specifications in the following list will be available for sale from the Government of India Book Depot, 8, Hastings Street, Calcutta in due course. The price of each specification is Rs. 2 (postage extra, if sent out of India). Requisition for the supply of printed specifications should be accompanied by the numbers of specifications as shown in the following list.

If required typed copies of the specification together with copies of drawings, if any, can be supplied by the Patent Office on payment of the necessary charges which may be ascertained on application to the office.

The dates shown in crescent brackets are the dates allowed under Section 78-A of the Act.

57548. Metallschlauch-Fabrik Pforzheim Vorm. Hch. Witzemann G.m.b.H. Improvements in and relating to flexible tubes for covering and protecting conductors, pipes, cables, tensioning cables and the like and devices for the manufacture of flexible tubes. (27th February 1956). Accepted on 7th March 1958.

*Corrugated sheath for pretensioned structural element in reinforced concrete.*

57673. Hammerle A.G. Press of throated or open gap construction. Accepted on 11th March 1958.

*Having inner supporting structure and an outer supporting structure independent thereof, and double guide provided for press slide.*

57715. Etablissements Clin-Byla. Improvements in or relating to the production of derivatives of phenothiazine. Accepted on 8th March 1958.

*An aminoalkyl ester of phenothiazine N-carboxylic acid is decarboxylated by heat treatment.*

57784. Rohm & Haas Company. Pesticidal compositions. Accepted on 6th March 1958.

*The composition comprises a toxicant of the formula  $(CH_3)_2 NOCO-A-CH_2Y$  (A=phenyl or alkyl-nitro or chloro-phenyl; Y=dialkylamino, N-piperidino-N-morpholino or N-pyrrolidino) and a non-phytotoxic carrier.*

58363. Daimler-Benz Aktiengesellschaft. Improvements relating to trailing axle arrangements on vehicles. (2nd July 1956). Accepted on 6th March 1958.

*Trailing axle suspended from vehicle by leaf springs disposed longitudinally of the vehicle, the axle mounted in bearings to be axially slidable, the bearings being secured to the leaf springs, and leaf springs being displaceable longitudinally but not transversely of the vehicle.*

58376. A. E. Staley Manufacturing Company. Improvements in or relating to refining vegetable oils. Accepted on 10th March 1958.

*Treating with water in presence of acid anhydride of lower alkyl aliphatic monobasic and dibasic acids.*

58386. Babcock & Wilcox Limited. Improvements in and an improved method of operating tubulous vapour generating and vapour heating units. Accepted on 6th March 1958.

*Upright vapour generating tubes vapour super-heating tubes in the upper portion of vertically elongated upright walled furnace including row of fuel gas burners.*

58401. Hercules Powder Company Incorporated. Process for polymerising ethylene and the homologues thereof. (5th April 1956). Accepted on 10th March 1958.

*Introducing at least one catalyst component into the reaction vessel during polymerisation.*

58429. Hercules Powder Company Incorporated. Process for the manufacture of polyolefins. (6th April 1956). Accepted on 6th March 1958.

*Treating polyethylene produced by low pressure polymerisation process with alkaline material.*

58556. J. D. Hedges. Formed carbon article and process of making same. Accepted on 12th March 1958.

*Subjecting to high pressure carbonaceous material containing volatile combustible matter within mold and electrically heating to generate heat within the said materials.*

58651. Ciba Limited. New benzimidazoles and process for their manufacture. Accepted on 6th March 1958.

*1-(lower tertiary amino-lower alkyl)-benzimidazoles which have a benzyl group and a nitro group in 2- and 5-positions respectively are prepared by known methods by cyclisation or condensation.*

58682. Phillips Petroleum Company. Process for production of drawn polymers such as filaments and film and the drawn polymers so produced. Accepted on 8th March 1958.

*Extending olefinic polymers, cold drawing at between room temperature and softening point and heating to below said softening point.*

58731. Tokyo Shibaura Electric Co., Ltd. Improvements in or relating to the damping apparatus for watt-hour meters. Accepted on 11th March 1958.

*Having yoke of channel type, a spur gear rotatable upon one leg of yoke, an adjusting pinion on said leg, a permanent magnet fixed upon the spur gear and a clearance to receive a rotary disc between the magnet and the other leg of the yoke.*

58893. Sarat Chandra Das. Septic tank-cum-latrines. Accepted on 11th March 1958.

*Comprising chamber with pan having discharge mouth above the level of mouth of overflow pipe, baffle wall therein extending below and above liquid level and gas outlet and drain pipes.*

59074. Societe Des Usines Chimiques Rhone-Poulenc. Improvements in or relating to iminodibenzyl compounds and processes for their preparation. (27th September 1956). Accepted on 8th March 1958.

*An iminodibenzyl base is treated with a compound of a piperazine grouping to produce an iminodibenzyl derivatives.*

59240. The Goodyear Tire & Rubber Company. Improvements in dual compartment tire. Accepted on 8th March 1958.

*Annular diaphragm arranged between tire and rim is made air impervious to retain air for an extended period of time.*

59282. D. Napier & Son Limited. Rotary speed sensitive device. (13th January 1956). Accepted on 12th March 1958.

*Comprising centrifugal mass connected to rotary member, radial outer and inner surfaces of mass being arranged in separate fluid chambers, while the mass operates valve mechanism controlling pressure and at least one of said chambers automatically.*

59397. F. Hoffmann-La Roche & Co. Aktiengesellschaft. Uracil derivatives and preparation thereof. Accepted on 8th March 1958.
- Alkali metal fluoracetate is reacted with an alkylating agent, the product is subjected to claisen condensation with alkyl formate, the product is reacted to produce 5-fluorouracil.*
59640. Goodyear Aircraft Corporation. Improvements in airplane. Accepted on 8th March 1958.
- Empennage, wing and fuselage made from flexible air impervious fabrics.*
59755. "LICENCIA" Talalmanyokat Ertekesito Vallalat. Improvements in the process for the production of alkali bentonite from alkaline earth bentonites. Accepted on 8th March 1958.
- Alkali metal electrolyte is added to the alkaline earth bentonite at a temperature above 40°C, and the product is mixed and kneaded at a similar temperature.*
59802. Societe Des Usines Chimiques Rhone-Poulenc. New Indole derivatives and process for their preparation. Accepted on 8th March 1958.
- Ammonia, hydrazine or mono-ordi-methylamine is reacted with a 3-ethylindole -2-carboxylic acid derivative.*
59838. Union Carbide Corporation, formerly known as Union Carbide and Carbon Corporation. Method of producing ferrochromium having a low-carbon content and an improved resistance to gas adsorption and/or moisture. (23rd November 1956). Accepted on 8th March 1958.
- Heating a compacted aggregate from a mixture of high-carbon ferrochromium, a binder and a gangue material having an oxygen content in excess of that required for reaction with the carbon in ferrochromium in a furnace under sub-atmospheric pressure to an elevated temperature.*
60163. J. Danek and Kovelis, n.p. Control arrangement of pneumatic brakes on railway vehicles. Accepted on 12th March 1958.
- A non return valve with a calibrated aperture is provided in the chamber which effects communication between the main air line and the control reservoir.*
60329. The British Petroleum Company Limited. Improvements relating to lubricating oil compositions. (8th May 1956). Accepted on 8th March 1958.
- Stable suspension of particles of an additive consisting of one or more alkaline solids in a mobile lubricating oil.*
60446. R. S. Bhalekar. An improved industrial hammer. Accepted on 12th March 1958.
- Moulded iron head is provided with inwardly threaded sockets on either sides for accommodating faces.*
60509. Union Carbide Corporation, formerly known as Union Carbide and Carbon Corporation. Process and agent for treating ferrous materials. (29th January 1957). Accepted on 10th March 1958.
- Treating agent comprising a mixture of a comminuted metal or alloy and a comminuted refractory material, the refractory material is in the form of particles not larger than 200 mesh.*
60736. Glaxo Laboratories Limited. Improvements in or relating to the extraction and purification of sapogenins. Accepted on 8th March 1958.
- Cruden sapogenin containig material is heated with a solution of alkali metal hydroxide or an alkoxide in an alkanol and the reaction mixture is heated with alkaline earth metal ion and the alkanolic solution of sapogenin is separated.*
61035. Shuford Mills, Inc. Variable speed drive. Accepted on 6th March 1958.
- Pulley comprising a pair of mating flanges each mounted for independent axial movement.*
61036. Shuford Mills, Inc. Variable speed mechanism. Accepted on 6th March 1958.
- Relative movement between two flanges constituting pulley effected by tensioned V-belt constitutes relative movement between piston and cylinder.*
61037. Shuford Mills, Inc. Speed control for winding machines. Accepted on 6th March 1958.
- Means for progressively opening pressure regulator valve corresponding to increase the pressure directed into expensible pulley with movement of ring rail.*
61038. Shuford Mills, Inc. Means for traversing yarn onto yarn carriers in spinning twisting or other winding machines. Accepted on 6th March 1958.
- Means for gradually decreasing the speed of the or each yarn carrier with at least some strokes of traversing means in one direction.*
61039. Shuford Mills, Inc. Apparatus for maintaining tension in belts entrained over pulleys. Accepted on 6th March 1958.
- Means for admitting a constant predetermined amount of fluid pressure to fluid pressure means tending to more shaft of pulley.*
61222. Ciba Limited. Process for the dyeing of fibres of polyacrylonitrile. Accepted on 8th March 1958.
- The dyeing is conducted in the presence of a quaternary ammonium salt containing at least one aralkyl radical or cycloalkyl radical or the grouping-N-alkylene-R<sub>1</sub>-(R<sub>1</sub> and R<sub>2</sub> stand for*
- $$\begin{array}{c} | \\ \text{N} \\ | \\ \text{R}_2 \end{array}$$
- alkyl radicals).*
61417. Yuasa Battery Company, Limited. Electric storage cell or battery positive plate. Accepted on 12th March 1958.
- Comprising parallel tubes fabricated with glass fibre mats stiffened with water suspension of already polymerized synthetic resin particles, inserted into electro-conductive spines, active material filled in between tubes and spines and a pair of acid-resisting non-electroconductive protective bar plugging into both ends of the tubes.*
61613. Union Carbide Corporation. Process for making cured cellular vinyl chloride resin composition. Accepted on 8th March 1958.
- Mixing by weight 10—75 parts and vinyl Chloride resin; 1—85 parts poly (ethylene glycol) dimethacrylate and 5—70 parts non-polymerisable plasticizer for 100 parts of each heating the plastisol.*
61729. The Steel Company of Wales Limited. Improvements in steel manufacture. Accepted on 11th March 1958.
- Injecting a mixture of oxygen and steam or other diluent gases into the charge.*
62226. Carlton General Distributors (Shuttlecocks) Limited. An improved method of manufacturing a racket. (2nd January 1957). Accepted on 8th March 1958.
- String portion is fixed to the already formed loop portion held in a tool.*
62229. Ciba Limited. Pharmaceutical preparations containing new benzimidazole compounds. (Divisional date 17th October 1956). Accepted on 6th March 1958.
- The composition comprises an alkylamino-alkyl-benzimidazole substituted in the 2-position by a benzyl group and in the 5-position a nitro-group, and a pharmaceutical carrier.*
62415. Amal Kumar Ghosh. Improvements relating to adjustable wrenches. Accepted on 10th March 1958.
- Linear movement of the movable jaw towards and away from the fixed jaw consists of a rack and worm fitted near the handle at the rear portion of the ratchet housing.*

62579. Douglas Fraser & Sons Limited. Sliver failure detection device for drawing frames for slivers of bast fibres. (15th December 1956). Accepted on 12th March 1958.

*A pair of forwarding rollers located intermediate the sliver roll and the main feed rollers are incorporated in an electrical circuit to and from the operating mechanism of the drawing frame.*

### Opposition Proceedings

#### I

An opposition has been entered by Farbenfabriken Bayer Aktiengesellschaft to the application under Section 22 made by Arlabs Private Ltd., in respect of Patent No. 43678 advertised in this office notification in the Gazette of India, Part III, Section 2, dated the 1st December 1956.

#### II

An opposition has been entered by Farbenfabriken Bayer Aktiengesellschaft to the application under Section 22 made by Arlabs Private Ltd., in respect of Patent No. 43679 advertised in this office notification in the Gazette of India, Part III, Section 2, dated the 1st December 1956.

#### III

An opposition has been entered by Prakash Mechanical Works, to the grant of a patent on application No. 58678 made by T. L. Chari.

### Patents Sealed

55666. 56426. 56770. 56859. 58584. 58940. 59345. 60353. 61464.

### Amendments Proceedings

#### (1)

Notice is hereby given under Section 17 of the Indian Patents and Designs Act, 1911, that The Indian Oxygen and Acetylene Company Private Limited, now re-named Indian Oxygen Limited, of 48/1, Diamond Harbour Road, Calcutta, West Bengal, India, an Indian Company seek leave to amend the name of the applicant in the application, specification and drawing in respect of Patent application No. 57188. Any person desirous of opposing the application for amendment should at any time within three months from the date of this Gazette, give notice of his intention to do so on the prescribed form (form 6 of the Indian Patents and Designs Rules, 1933) in the Patent Office, 214, Lower Circular Road, Calcutta 17. The proposed amendment may be seen free of charge at the Patent Office, or copies thereof may be obtained from the Patent Office, on payment of the usual charges.

#### (2)

Notice is hereby given under Section 17 of the Indian Patents and Designs Act, 1911, that The Indian Oxygen & Acetylene Company Private Limited, now re-named Indian Oxygen Limited, of 48/1, Diamond Harbour Road, Calcutta, West Bengal, India, an Indian Company seek leave to amend the name of the applicant in the application, specification and drawing in respect of Patent application No. 57473. Any person desirous of opposing the application for amendment should at any time within three months from the date of this Gazette, give notice of his intention to do so on the prescribed form (form 6 of the Indian Patents and Designs Rules, 1933) in the Patent Office, 214, Lower Circular Road, Calcutta 17. The proposed amendment may be seen free of charge at the Patent Office or copies thereof may be obtained from the Patent Office, on payment of the usual charges.

#### (3)

Notice is hereby given under Section 17 of the Indian Patents and Designs Act, 1911, that Otto Muller, Swiss subject and resident of "Mary Lodge", Behramji Jeejeebhoy Road, Bandra, Bombay 20, India seek leave to amend the application, specification and drawing to insert therein the name of Co-applicant in respect of Patent application No. 58005. Any person desirous of opposing the application for amendment should at any time within three months from the date of this Gazette, give notice of his intention to do so on the prescribed form (form 6 of the Indian Patents and Designs Rules, 1933) in the Patent Office, 214, Lower Circular Road, Calcutta 17. The proposed amendment may be seen free of charge at the Patent Office, or copies thereof may be obtained from the Patent Office, on payment of the usual charges.

#### (4)

Notice is hereby given under Section 17 of the Indian Patents and Designs Act, 1911, that Otto Muller, Swiss subject and resident of "Mary Lodge", Behramji Jeejeebhoy Road, Bandra, Bombay 20, India seek leave to amend the application, specification and drawing to insert therein the name of Co-applicant in respect of Patent application No. 60365. Any person desirous of opposing the application for amendment should at any time within three months from the date of this Gazette, give notice of his intention to do so on the prescribed form (form 6 of the Indian Patents and Designs Rules, 1933) in the Patent Office, 214, Lower Circular Road, Calcutta 17. The proposed amendment may be seen free of charge at the Patent Office, or copies thereof may be obtained from the Patent Office, on payment of the usual charges.

#### (5)

The amendment proposed by Time, Incorporated in respect of Patent application No. 54197 as advertised in the Gazette of India, Part III, Section 2, dated the 16th November 1957 has been allowed.

### Renewal Fees Paid

20778.	26287.	27205.	28002.	28005.	28768.	28769.	28770.	28790.
28824.	28882.	30904.	31009.	32452.	32459.	32579.	33082.	34546.
